OBJECTIVE

Motivated Computer Science Engineering student with hands-on experience in software development, algorithms, and system design, eager to build scalable, high-performance applications that address real-world challenges.

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science Engineering

2022 – 2026

M. S. Engineering College, VTU, Bengaluru; CGPA : 8.2

SKILLS

- **Languages:** Python, C, C++, JAVA, Dart
- **Frontend:** React.js, Tailwind CSS, HTML/CSS, Responsive UI/UX
- **Backend:** Node.js, Django REST Framework, REST APIs, JWT
- **AI & ML:** TensorFlow, Data Pre-processing
- **Databases & Tools:** SQLite, PostgreSQL, Supabase, **Claude**, **OpenClaw**, **n8n**, Git/GitHub, VS Code
- **Mobile:** Flutter, Android, **Firebase** (Authentication, Firestore)

PROJECTS

- **TaxiBill** — Multi-Tenant SaaS PWA for Taxi & Travel Companies: [Link](#)
 - Built with React 18, TypeScript, Vite, Tailwind CSS, and **Framer Motion**; deployed on **Vercel** with **GitHub Actions CI**.
 - Architected a **multi-tenant Supabase** backend (Postgres + **Row Level Security** + magic-link OTP auth) supporting drivers.
 - Hardened with strict **CSP**, **HSTS preload**, **Zod** validation, and React **ErrorBoundary**.
- **Internship & Job Hunter** — AI-Powered Job Outreach Automation System: [Link](#)
 - Built a full-stack automation platform (React, FastAPI, PostgreSQL) that discovers target companies via **Apollo.io/Playwright scraping**, generates hyper-personalized cold emails using **Groq AI (Llama 3.3 70B)**, and sends them through Gmail OAuth2 with open tracking, auto follow-ups, and rate limiting.
 - Engineered async multi-agent architecture handling concurrent scraping, **email verification (ZeroBounce)**, AI generation, and scheduled sending, with **SSE streaming** for live progress updates.
- **Japfa Invoice** — OCR Invoice Scanner · Android · Flutter, Riverpod, Firebase, ML Kit:
 - Built an Android OCR invoice scanner for Japfa Comfeed India (**Flutter**, **Riverpod**, **SQLite**, **ML Kit**, **Firebase**) — cuts data entry from 7 min to <30 sec.
 - Designed a strict label-driven invoice parser tuned to 10 real GST invoices; **offline-first SQLite** with v1→v2 schema migration; verify-and-edit-first UX.
 - Shipped with **GitHub Actions CI** (lint + test + Android APK+ iOS compile-verify on macOS), tag-triggered release.

EXPERIENCE

App Development Intern

MindMatrix | Jan – March 2026

- Completed an industry-aligned internship in Android App Development using Generative AI, rated “Excellent.”
- Built Android applications using Kotlin and Jetpack Compose with Firebase integration for authentication and data storage.
- Utilized Android Studio, Google Cloud Labs, and Google AI Studio to explore and implement GenAI capabilities.
- Practiced end-to-end development workflows including UI/UX design, prototyping, debugging, and iterative enhancements.

Flutter Developer Intern

Japfa | April - June 2026

- Building cross-platform mobile applications using Flutter and Dart, improving UI responsiveness.
- Integrated REST APIs and processed JSON data to enable dynamic app functionality.
- Planned and executed multiple responsive UI screens for better user experience.
- Collaborated with team members to test, debug, and optimize application performance.

TRAININGS & CERTIFICATIONS

- **Microsoft Azure AI Essentials Professional Certificate** - LinkedIn August 2025
- **Goldman Sachs Operations Simulation Certificate** - Forage April 2025
- **Python Bootcamp** - Udemy March 2025

VOLUNTEERING

Vice President (MSEC CLUB) M. S. Engineering College, Bengaluru

May 2025 – May 2026

- Providing strategic leadership in organizing career-oriented initiatives, fostering industry connections.

Technical Club Dept. Of CSE, M. S. Engineering college, Bengaluru

Dec-2025

- Managing technical initiatives, guiding project development, and mentoring club members to build practical skills.

EXTRACURRICULAR ACTIVITIES

- 5th Place – Project Exhibition (2025)
- Vice President – Dept of CSE Club
- National Service Scheme Volunteer - MSEC
